P Faculty

SEYMOUR PACKMAN, M.D. [1]
Human Biochemical Genetics
Program: Tetrad [2]

BARBARA PANNING, Ph.D. [3]
RNA and Chromatin
Program: Tetrad [2]

FEROZ PAPA, M.D., Ph.D. [4]
Protein misfolding diseases and new modes for therapy
Program: Tetrad [2]

EMMANUELLE PASSEGUE, Ph.D. [5]
Molecular and cellular understanding of normal and leukemogenic hematopoiesis
Program: Developmental and Stem Cell Biology [6]

MATIJA PETERLIN, M.D. [4]
Molecular Biology of MHC II and HIV
Program: Developmental and Stem Cell Biology, Immunology [7]

SAM PLEASURE, M.D., Ph.D. [8]
Regulation of Hippocampal and Thalamic development
Program: Developmental and Stem Cell Biology, Neuroscience, Tetrad [2]

STANLEY PRUSINER, M.D. [10]
Molecular Biological, Genetic and Protein Structural Studies of Prion Disease
Program: Neuroscience [9]
LOUIS PTACEK, M.D. [11]

Genetics and Biology of Human Nervous System Disorders
